

**Effortless Screen Recording.  
Powerful Editing.  
Smart Sharing.**

**Recorder & Stitcher** – Your All-in-One  
Tool for Interactive Visual Documentation

## What is Recorder & Stitcher?

Simplify how you capture, edit, and deliver screen-based workflows. Whether you're onboarding a new user, documenting bugs, or recording test cases,

**Recorder & Stitcher** makes the process seamless—from click-based screen capture to customizable exports.

# Key Features

## Recorder Module

### Auto-Click Screenshots

Screenshots are automatically taken at every click, so you never miss a step

### Customizable Recording Area

Record your entire screen or a selected window—your choice, your control.

### Optional Audio

Narrate your workflow or include key audio context with a single checkbox.

### Smart Output Format

Recordings are saved in a **ZIP file** with an **HT-ML-based interactive viewer** inside.

### Hotkey Control

Start (Ctrl+Alt+R), Pause (Ctrl+Alt+P), and Stop (Ctrl+Alt+S) — all with keyboard shortcuts.

# Key Features

## Stitcher Module

### Client & User Management

Easily create clients and assign users. Each client can have multiple users for collaboration.

### Upload & Edit

Upload recorded ZIPs, then add text, images, highlight boxes, or duplicate/delete slides as needed.

### Access Control & Search

Easily manage clients and users, with search and quick-action buttons.

### Export Options

Choose from multiple formats:

**Test** – For QA or validation

**Play** – For playback or reviews

**Self** – For internal use/documentation

**PDF** – For sharing/static records

# Why Teams Love It

- ▶ **Great for QA teams** documenting bugs and walkthroughs
- ▶ **Ideal for Test Engineers** validating use cases
- ▶ **Perfect for Trainers** building visual SOPs
- ▶ **Built for Collaboration** with structured client-user hierarchy

# Ready to simplify your documentation process?

Let's get you started.
